Robert Rosen  
CDFC  
155 Federal Street, Suite 202  
Boston, MA 02110

Dear Robert:

We wanted to quickly thank you for helping to facilitate our term loan from CDFC. You were very helpful as we moved through the process-from the application process straight through to the closing.

Right at Home has been fortunate to be in a growing segment of the economy during these rough economic times for our country. The growth of our home health agency relies on our ability to bring on more employees, train them, and provide them benefits. However, because we work for government agencies, as well as private families, our reimbursement for services can be slow.

With the tight credit markets and the rise of the cost of doing business, it is very hard to survive, much less flourish as a small, family owned business. Your loan has helped us have more breathing room financially, while we grow our two Massachusetts offices and serve more middle and low income seniors with home health care services.

Thanks again for your help.

Regards,

Rosaleen Doherty
